- **100% organic certified range**
- **Clean-label ingredients**
- **Environmentally friendly packaging**
- **Expanding footprint across retail and ecommerce platforms**

Foundation of Shijika India Pvt Ltd

In 2002, our founders began an initiative to **empower tribal farmers** across regions in **Rajasthan (RJ)** and **Madhya Pradesh (MP)**, helping them transition from traditional to modern, sustainable farming practices. Over time, the effort expanded to connect **more than 8,000 farmers** across India — and today, alongside this farmer network, we also partner with a number of authentic suppliers, as no single region can produce everything.

In 2023, they founded **Shijika India Pvt. Ltd.** and **Greengrove Organics** to provide a **fair and transparent marketplace** for these farmers and suppliers.

With their own **certified** processing unit (**OneCert– NPOP & NOP**) and a strong sourcing network that focuses on regional product strength and quality, we now offer **150+ retail SKUs and 50+ bulk** products to conscious consumers across India — creating value at both ends of the chain.
